BOARD OF SUPERVISORS.

Monday, Tuesday and Wednesday's Proceedings.

MONDAY, February 7th.

The Board of Supervisors met in regular monthly session at the Court House, Santa Rosa, at 10:30 A. M. Present—Messrs. Allen, Coulter, Davis, Connolly and Chairman O'Hara. The minutes of the last meeting were read and approved, after which the Board adjourned till 1 P. M.

AFTERNOON SESSION.

The Supervisors reconvened pursuant to adjournment, all being present.

The bids for the improvement of the Court House grounds were opened and read, and the contract for the granite and concrete work awarded to Fisher & Kluss-low for $2,966. The contract for the iron fence was awarded to W. C. Good & Co., for $2,050.

A communication was received from Martha C. Wattress, requesting that the line of the proposed new road, petitioned for by Read and others, and running through her lands near the northern boundary line, be changed, specifying as reasons for the change that the narrow strip of land between the northern boundary line and the proposed new road would be rendered worthless. The communication also set forth that if the line of the proposed new road could be changed and run a few feet further south, and the said strip of land enlarged to five acres, she could sell the same, otherwise it would be worthless.

A communication from Chas. T. DeHaven, to the effect that he was desirous of purchasing said strip of land if it contained five acres, was also read by the Clerk.

The following Road Overseers' reports were received and placed on file and their bills allowed, as follows: Gallant Rains, Petaluma Road District, $489 30; W. F. Harris, Washington, $214 75; T. Kelly, Knight's Valley, $101 60; C. Parkerson, Mendocino, $198 26; C. T. Caldwell, Santa Rosa, $37 75; Thomas Furlong, Bodega, $549 70.

On motion the Board adjourned to meet Tuesday at 10 A. M.

TUESDAY, February 8th.

Board reconvened at 9 A. M., all members present.

In the matter of the proposed road from Rincon Hill to Brown's Valley, the Clerk was instructed to advertise for bids for the construction of three sections of said road as per plans and specifications on file in his office.

Referring to an Act of the Legislature, entitled "An act to appropriate money for the support of aged persons in indigent circumstances," approved March 15, 1883, Mr. Connolly moved that inasmuch as other counties of the State have applied to the proper authorities and obtained the amount due under the provisions of the above act for the maintenance of the indigent aged poor in their respective counties, therefore be it made the order of the Board that the District Attorney be instructed to communicate with the Board of State Examiners on the subject and obtain the necessary blanks to enable him to make proper application for the amount due Sonoma county under the provisions of the Act. So ordered.

The Clerk then read a petition for the removal of Victor Durand, Road Overseer of Salt Point township, signed by 107 residents of the township, also a remonstrance from J. Anderson of Fisks' Mill. The petition and remonstrance were placed on file, and further consideration of the same postponed. The Clerk was instructed to serve a copy of the charges contained in the petition on Victor Durand, to enable him to make his defense when the matter is again brought up.

On motion, the Clerk was instructed to have 500 copies printed of the resolution of the Board relative to the boundary lines of the various school districts, passed June 6, 1886, for the use of the Superintendent of Schools.

On motion, the indigent list was allowed, with the following apportionments: Santa Rosa, $93; Petaluma, $97 25; Healdsburg, $45 50; Sonoma, $20; Cloverdale, $21; Bloomfield, $20; Forestville, Valley Ford, Windsor, Bodega, Salt Point and Sebastopol, $10 each; Geyserville and Ingrams, $5 each.

Recess till 1 P. M.

AFTERNOON SESSION.

The Board reconvened at 1 P. M., members all present.

Messrs. A. P. Grover, Hollis Hitchcock and other citizens of Analy township appeared before the Board in the interest of the proposition to macadamize the county road between Bloomfield and Valley Ford. They urged the macadamizing of the road and thought it would cost about $4,000. Mr. Allen moved that the county contribute an amount equal to that raised by the citizens, not exceeding $1,500. the same to be paid from the General Road Fund of the county. Mr. Connolly opposed the motion on the ground that the other road districts would suffer if the money was taken entirely from the General Road Fund. Mr. Allen then changed his motion to read, "The "$1,500 to be paid from the General Road Fund and the Analy road fund, namely: General Road Fund, $1,000; Analy, $500" So ordered.

The report of Jailor Breitenbach for the month ending February 5th, was received and placed on file.

The report of the Superintendent of the County Farm was also received and filed. It shows the expense of conducting the same for the month ending the 5th inst. to have been $499 55.

On motion of Mr. Allen, J. H. Custer was appointed Poundmaster of the Petaluma district vice John Kendall, resigned.

The reports of F. Breitenbach and J. P. Smith, Justices of the Peace, were received and placed on file.

The bond of the American Bridge Company in the sum of $2,000, for the maintenance of the bridge across Mayacamas creek, for the period of two years, was accepted, and the bill for the remainder of the contract price, $1,190, was allowed from the General Fund.

The Board then adjourned till Wednesday morning.

WEDNESDAY, February 9th.

The Board reassembled at 9 A. M., all the members being present.

J. W. Blaney was appointed Constable of Bodega township, in pursuance of a petition to that effect which had been received.

The report of the viewers appointed to view and lay out the proposed change in the highway between Sebastopol and Occidental was received and placed on file, and Wednesday, March 9th, at 1 P. M., was set for further hearing.

The following communication from the State Engineer, referring to the petition of J. M. Donahue for permission to build a draw-bridge across Petaluma Creek, was read by the Clerk:

I am of the opinion that the location proposed in the petition for a bridge is a proper one, and that the structure intended to be placed there is a suitable one. I specified a least width of 100 feet of clear waterway as a sufficient draw opening to accommodate navigators, and a least elevation of six feet above highest known water plane, for the lower surface of the lower chord or stringer of the structure as a due elevation to accommodate, with a structure of the kind described, all possible demands for a flood discharge. Respectfully yours,

WM. HAM HALL, State Engineer.

No immediate action was taken in the matter.

The Auditor's and Treasurer's reports as follows were received and placed on file:

SHAMEFUL ABUSE

Heaped Upon a Noted Englishman for His Open Honesty.

WM. ED. ROBSON, M. D., L. R. C. S. I., M. K. Q. C. P. I., late of the Royal Navy, of England, has got into professional trouble for writing the following open letter to the editor of the London *Family Doctor:*

"I believe it to be the duty of every physician to make known any means or remedy whereby sickness can be prevented, and it is for this purpose I write to give my experience both here and abroad. I ask the publication of the statement that people may be warned before it is too late, to say to them that there is at hand a means by which they may be restored to perfect health. It is well known to the medical world, and indeed to the laity, that a certain disease is making a terrible havoc; that next to consumption it is the most fatal, and that when fully developed there is nothing to be done for the sufferer."

Physicians and scientists have long been trying to throw light upon the cause, and if possible, find in nature a medicine for this fatal malady. They have shown, absolutely, that the blood-purifying organs of vital importance, are the kidneys, and that when they once fail, the poison which they should take out of the blood is carried by the blood into every part of the body, developing disease."

"In my hospital practice in England, India and South America, and also while a surgeon in the Royal Navy of Great Britain, I gave a great deal of attention to the study of diseases of the kidneys and urinary organs, and found that not only was the cure of chronic Bright's Disease hopeless, but that kidney disease was remarkably prevalent; much more so than generally known, and was the cause of the majority of cases of sickness, and further, that the medical profession has no remedy which exerts any absolute control over these organs in disease."

"Some time ago when I had a case which resisted all regular treatment,—which is very limited,—complicated with the passing of stones from the kidneys, much against my will I permitted my patient to use Warner's safe cure, of which I had heard marvelous results. In his case the result was simply marvelous, as the attack was a severe one, and development very grave, for an analysis showed per cent. of albumen and granular tube casts."

"The action of the medicine was singular and incomprehensible to me. I had never seen anything like it. The patient recovered promptly, and is to-day a well and healthy man. This stimulated my inquiry into the merits of the remedy and after analysis I found it to be of purely vegetable character, harmless to take under all circumstances."

"Casting aside all professional prejudice, I gave it a thorough trial, as I was anxious that my patient should be restored to health, no matter by what medicine. I prescribed it in a great variety of cases, Acute, Chronic, Bright's Disease, Congestion of the Kidneys, Catarrah of the Bladder, and in every instance did it speedily effect a cure."

"For this reason I deem it my duty to give to the world this statement regarding the value of Warner's safe cure. I make this statement on facts I am prepared to produce and substantiate. I appeal to physicians of large practice who know how common and deceptive diseases of the kidneys are, to lay aside professional prejudice, give their patients Warner's safe cure, restore them to perfect health, earn their gratitude, and thus be true physicians."

"I am satisfied that more than one-half of the deaths which occur in England are caused, primarily, by impaired action of the kidneys, and the consequent retention in the blood of the poisonous uric and kidney acid. Warner's safe cure causes the kidneys to expel this poison, checks the escape of albumen, relieves the inflammation and prevents illness from impaired and impoverished blood. Having had more than seventeen years' experience in my profession, I conscientiously and emphatically state that I have been able to give more relief and effect more cures by the use of Warner's safe cure than by all the other medicines ascertainable to the profession, the majority of which, I am sorry to say, are very uncertain in their action."

"Isn't that a straightforward, manly letter?"

"Indeed it is."

"Well, but do you know the author has been dreadfully persecuted for writing it?"

"How so? What has he done to merit it?"

"Done? He has spoken the truth 'out of school' and his fellow physicians who want the public to think they have a monopoly in curing diseases, are terribly angry with him for admitting professional inability to reach certain disorders."

"That letter created a wonderful sensation among the titled classes and the public. This jarred the doctors terribly. The College of Surgeons and Queen's College, from which institution he was graduated, asked for an explanation of his unprofessional conduct, and notified him that unless he made a retraction they would discipline him."

"The doctor replied that he allowed his patients to make use of Warner's safe cure only after all the regular methods *had failed*, and when he was satisfied that there was no possible hope for them. Upon their recovery, after having used Warner's safe cure, he was so much surprised that he wrote the above letter to the *Family Doctor*. He regretted that the faculties found fault with his action in the matter, but he could not conscientiously retract the facts as written to the *Family Doctor*."

"The faculties of both colleges replied that unless he retracted they should cut him off, which would naturally *debar him from again practicing his profession*, and also prevent his securing another appointment in the Royal Navy!"

The illustrious doctor's dilemma is certainly an unpleasant one, emphasizing as it does, both his own honesty, and the contemptible prejudice and bigotry of English medical men. The masses, however, having no sympathy with their nonsense, keep on using the remedy he so highly recommends and get well, while the rich and able depend upon the prejudiced doctors and die!

Father of young girl—I should think you would be satisfied after the treatment you got here last night, I kicked you down the front steps and set the dog on you, and he came back with a piece of your trousers. Now what do you want?

Young man—I'd like that piece of cloth, please.

FOREIGN News and Gossip—The deadlock in the New Jersey Legislature still continues. No choice for Senator yet.

JOHN T. CAMPBELL of Santa Rosa has accepted the appointment of Consul-General to Auckland, New Zealand. He will sail for that country next month.

THE Governor of Kansas has approved the bill recently passed by the la-de-dahs of the Legislature of that State, conferring municipal suffrage upon women.

WHO wouldn't be a Democratic lawyer in Santa Rosa? Of the attorneys of that political faith practicing in that city of late years Barclay Henley is a Congressman, Judge W. W. Porter a Supreme Court Judge in Arizona, T. J. Campbell our Consul-General to Auckland, Jackson Temple a Justice of the Supreme Court in this State, Geo. A. Johnson, Attorney-General and T. J. Geary the brightest young lawyer of them all—well, Tom there is a chance for you yet.

HENRY GEORGE says: "Boom! and an awful shadow of dread falls on a far Western city. Shall we keep on playing that nothing is the matter?" To which the *Alta* very significantly replies: "No, Henry, we shall not. Snap! jerk! ugglegguggle, kick and struggle, and off swings a dynamiter who discovers that something is the matter with the scoundrels who propose murder as a means of reforming society."

QUEER accidents sometimes happen. Several years ago a man, while gathering mushrooms in a vacant lot in Sacramento stooped to pick one up when one of his eyes was pierced by a thin iron rod which was sticking in the ground about three feet above the surface. The rod entered the man's brain and caused his death. The latest peculiar accident comes from Monticello, Napa county. In this case a man lost his life by being hanged on a picket fence. On Friday afternoon of last week, a laborer named W. B. Johnson, while intoxicated, leaned over a picket fence while vomiting, and losing consciousness his legs slipped from under him and in falling his neck became wedged in between two pickets and he strangled to death. His body was found the next morning in the position in which he died.

THE Commissioner or Pensions has prepared a letter of instruction and blank forms of application and affidavits of witnesses for the use of applicants for pensions under the Mexican War Pension law of January 13, 1887. The blanks, he thinks, will facilitate the business of his office and enable applicants to have their rights promptly adjudicated without unnecessary correspondence, trouble or expense. He invites direct application to his office by expectant pensioners. Upon the receipt of an individual application, an appropriate letter of instruction and a set of blanks will be forwarded to the applicant. The letters of instruction are full and explicit, and the blank forms plain, and all can be easily understood without the necessity of a legal education.

HOW THEY VOTED.

Sonoma county has three representatives in the Lower House of the State Legislature, to-wit: Jas. McDonnell, Jr., W. J. Hotchkiss and G. W. Morgan. Of the politics of these we have nothing to do. We look upon each as a representative of the people at the State Capital—that is to say, they have been sent there to help make good laws for their constituents, and prevent the passage of bad ones that might work an injury to the particular section they represent and the State in general.

Sonoma county's principal industries are her fruit and wine interests. To these, more than to any other, must she look for her future prosperity and greatness. Recognizing this fact, Assemblyman McDonnell, in the early days of the session, introduced an amendment to the Constitution of the State exempting growing crops, vines and fruit trees from taxation. This tax is clearly a double one and hard to be borne by the orchardist, vineyardist and small farmer. It was to lift this burden off their shoulders that the bill was introduced and sought to be passed. But the effort was fruitless. It failed of passage. Why? Because a number of members from the agricultural districts of the State went back on their constituents, and voted against the measure. Take Sonoma's Assemblymen for instance. Of the three members mentioned at the commencement of this article only one voted to relieve our agriculturalists from the burden of double taxation—that is to say, Jas. McDonnell, Jr., the author of the bill. Morgan, of the Twenty-third voted "NO," while Hotchkiss, of the Twenty-fourth was promiscuous for his absence when the the measure came up for passage. The natural inference to be taken from this is that of Sonoma's three Assemblymen, one (McDonnell) represents her agricultural interests, another (Morgan) is against them while the other (Hotchkiss) is astraddle the fence on the proposition.

COUNTY ITEMS.

Sonoma county has $193,438 61 in her Treasury.

There is talk of starting a stocking factory in Santa Rosa.

An Italian wood-chopper accidentally cut a fearful gash in his instep while chopping wood near Healdsburg one day last week.

The contribution box at the Holiness Band meeting house at Santa Rosa, upon being opened last Sunday was found to be empty. A hole had been cut in the bottom of it and the money abstracted.

The proposition to hold a Citrus Fair in Santa Rosa this year has been abandoned. It has been decided, however, by the Committee having the matter in hand to hold a Citrus Exposition early in 1888.

Hon. J. K. Luttrell of Glen Ellen, spent Sunday in Santa Rosa. He is one of Sonoma county's best citizens and has done much to make Glen Ellen and vicinity, where he owns large interests, a garden spot. —Democrat.

T. B. Burger, Postmaster of Booneville, Mendocino county, died in that place on the 10th inst. Deceased was a brother of C. H. Burger of Santa Rosa, a highly esteemed citizen and for many years resided in this county.

It is reported, says the Santa Rosa "Republican," that Wm. Wilson, formerly of the firm of Goldfish, Wilson & Co., but who now lives in South America, cleared over $100,000 on a drove of cattle which he bought and sold since his departure from this city.

John S. Van Doren, the ex-cashier, has sued the Sonoma County Bank of Petaluma and E. Denman for $1,350, the value of a horse and two buggies, which is part of the property taken by the bank Directors when the accusation of embezzlement was made against Van Doren.

Between thirty and forty thousand dollars have been expended in improvements at the woolen mills in Santa Rosa the past three years. These mills pay $40,000 a year to their owners, give employment to forty men and women and spend with the San Francisco and North Pacific Railroad Company between $4000 and $5000 a year.—Democrat.

THE President's veto of the Dependent Pension Bill seems to meet the approval of all classes except the claim agents. The latter would have reaped a rich harvest, running up into the millions, had the bill become a law.

WINE AND VINE NOTES.

WE are glad to see that the Coombs wine bill has been modified so that now it seems to suit all parties, even the *Chronicle*. As we pointed out that by the original bill classification would not be permitted a clause for this purpose now comes in with several other important amendments.

MRS. WARFIELD of Glen Ellen is shipping 20,000 gallons of wine directly to New York. Several years ago this lady sent a large amount of pure grape juice to a firm in the same city, from which resulted the celebrated non-intoxicant sparkling drink known as grape milk.

CAPT. BOYES of Agua Rica informs us that Mr. J. H. Drummond has not sold any wine at 20 cents a gallon, as reported in the Santa Rosa *Democrat* of last week, and that not a gallon of wine in Mr. Drummond's cellar could be bought for the price mentioned. It is quite evident that a great effort is being made to lower the market price of wines by false statements of sales, but who originates the reports has yet to be discovered.

WHAT a shameful story is that of the *Chronicle* about our wines being sold under fraudulent labels at largely enhanced prices. Chateau Lafite, Margaux, Leoville, etc., being manufactured out of wines that, from the description, could not be fit to drink, having neither proper taste, bouquet or color, or even proper fermentation. And yet we are told that our city clubmen are thus easily swindled. How we weep for them when we think that at their ages their palates should be so destroyed by early morning cocktails that not a member of a club within a mile of Union Square can tell what wine really is, but are content to swallow—a *label*.

APROPOS of the fraudulent sales of California wines under French labels in San Francisco, the name of the "prominent merchant" who gave the *Chronicle* a much over-colored statement of the true facts is well known in the city and the remarks concerning him are by no means flattering. The truth of many of the assertions are denied point blank, but supposing they were true, then what a consummate idiot he must have been to so thoroughly give away the manner in which he was doing the consumers.

WE are told that red wines are not in demand this season. Not because so much red wine has been made, but because so much can be manufactured in San Francisco. We of Sonoma county have several representatives in the Custom House. Now, we do not desire in any way that they should not fulfill the obligations of their office, but if possible we would like to know the names of the importers of the cargo of cherry juice that arrived "to order" last week by a British bark. If the importation is legitimate there can be no reasonable necessity of withholding the names of importers. If fraud is contemplated, then all the more reason for a knowledge of the names. Surely this is a case calling for the attention of our Viticultural Commissioners.

California Fruit.

The fruit dealers of Chicago, says the New York *Tribune*, admit that California can raise the finest fruits in the world, and that they would be very glad to handle California fruits in preference to foreign fruits; but unfortunately the California fruit men, they say, have a bad trick of putting up inferior goods under standard labels. Sometimes a box of raisins will have a thin layer of prime raisins on top, while the rest will be almost worthless. Moreover, the California fruit men do not appear to realize how important it is nowadays to pack goods in attractive packages. The California fruit raisers would do well to heed these criticisms.

A Serious Accident.

[Santa Rosa Democrat.]

As John Straddie, who resides on the Sonoma road, was returning home from this city Thursday afternoon, in a two-horse vehicle, he collided violently with a carriage going in the opposite direction. So violent was the collision that the horse and buggy and its occupant were thrown over a fence into an adjoining field. Mr. Straddie was pitched over the dash-board of his own conveyance, the wheels of which passed over his body near the collar bone. The scapula was fractured in three places. Dr. Shearer was summoned and rendered the necessary medical assistance. A splint was applied Friday. The doctor states that had the wheels passed an inch to the left or the right, the injury would have proved fatal, considering the age of the patient. The particulars concerning the occupant and the buggy, beyond the fact that he sustained no hurt, could not be learned.

In the matter of the petition for change in the Watress road, Mr. Coulter moved that the same be placed on file, and that J. Brewster, Allen Box and J. T. Peters be appointed to view and report this Board as to the proposed change. So ordered.

On motion of Mr. Connelly the Board adjourned to meet at the call of the chair for the purpose of visiting the County Farm and the Sonoma avenue extension.

FRIDAY, February 11th.

Board reconvened at 9 A. M., all members present.

The whole of the forenoon up to the noon adjournment was occupied by the consideration of Constables' bills. The following were allowed: W. H. Mead, $12 80; L. Brietenbach, $14 20; T. W. Tighe, $11 10; W. H. Woodson, $19 20; A. P. Crigler, $24 15 G. W. Sparks, $60 15; J. B. Lord $9 60; J. S. Bell $102 35; R. K. Truitt, $52 20; B. B. Berry, $6; John Brown, $84; Julius Blume, $111 95.

Recess till 1 P. M.

AFTERNOON SESSION.

The Board reconvened at 1 P. M., members all present.

The consideration of bills was resumed and the following were allowed: T. J. Furbee, County Hospital plans, $100; Carle & Croly, payment of Hospital contract, $2625.

Referring to the use of coal oil lamps in the several offices of the Court-house and Hall of Records, the Board, after investigation, has become satisfied that the use of said lamps is unnecessary and greatly endangers the safety of public buildings and public records. Mr. O'Hara, with Mr. Davis in the chair, moved that all those officers using such lamps in their offices are respectfully requested to discontinue the same. Wherever droplights are necessary the officer in charge is hereby authorized to arrange the same. So ordered.

On motion of Mr. Coulter, a new form of bond was substituted for the ones first ordered by the Porter School District.

In the matter of purchasing wood for the various county institutions, Mr. Connolly moved, that inasmuch as there are plenty of white men engaged in the wood business who are willing and anxious to sell the county all the wood that may be required, that hereafter the Superintendent of the Poor Farm, Hospital and other institutions are respectfully requested not to purchase or cause to be purchased any materials or supplies for their respective departments, when they know or have reason to believe the same have been manufactured wholly or in part by Chinese labor. The above motion was not seconded, although considerable discussion was called forth.

At 5 o'clock the Board adjourned to meet at the call of the Chair for the purpose of visiting the County Farm and Sonoma avenue extension, rain or shine.

SATURDAY, February 12th.

At 1:40 P. M. the Board met pursuant to adjournment at the call of the Chair. All members present.

On motion of Mr. Coulter, the petition of C. C. Wymore, P. H. Weeks and others, referring to the Sonoma avenue extension, was referred back to the petitioners for such changes as will make it conform to the requirments of sections 2081, 2 and 3 of the Political Code.

The consideration of the petition for the formation of a new school district, to be known as Goodman School District, was resumed, said petition having been changed so as to conform to the order of the Board, regulating the form of such petitions. In pursuance of Mr. Coulter's motion, it was made the special order for Tuesday March 8th, at 10 o'clock.

On motion of Mr Coulter, the County Auditor was instructed to apportion the Road fund to the various road district funds and the same being work outside the regular duties of the officer, he will receive such compensation as the Board shall deem just.

At 3 o'clock, on motion of Mr. Davis, the Board adjourned until Monday, March 7, at 10:30 o'clock.

Gaman & Lyon, 339 Kearney street, San Francisco. *

We have lately been shown the plans drawn up by Trustee Lawrence for the improvement of the Plaza. These have been adopted by the Trustees, and if carried out will convert that desolate-looking spot into one of the finest parks in the interior of the State. Workmen are now engaged in laying out the walks and tree-planting will commence next week.

Profit in Peaches.

Now that the tree planting season is at hand it seems to us the proper thing to call attention to the fact that Sonoma Valley, besides being one of the most wonderful grape and wine producing sections in the State, is also well adapted to the growth of all kinds of fruit—tropical and semi-tropical attaining perfection here under proper cultivation. As an evidence of the profit to be derived from a small orchard in this valley we will mention one case which has recently been brought to our notice: Mr. R. L. Watt, whose farm is located a few miles southeast of town, has a small peach orchard of 2½ acres. From this was netted the past season, after paying expenses of cultivation, packing and shipping, an even $610. For ten years the trees in this little orchard have been steady, prolific and profitable bearers and in only one instance have they failed to produce a good crop.

Petaluma Commercial College.

The attention of our readers is called to the advertisement, which appears in another column, of this excellent institution of learning. Here is taught all those branches so essential to success in the business pursuits of life—book-keeping, penmanship, telegraphy, shorthand, type-writing, etc. Messrs. Jordan and Atherton, the Principals, are experienced teachers and will do all in their power to advance students. The college, located as it is, within a few miles of Sonoma, ought to be patronized by those of our valley people who desire to give their boys and girls a thorough, practical business education.

A Suggestion.

As San Francisco is crowded with Eastern visitors, many of whom are in search of homes, we would suggest that we endeavor to attract a few of them this way. A good plan, and one that will cost little or nothing, would be to put on exhibition at the principal office of the S V. R. R., opposite the Grand Hotel, samples of our citrus fruits. As that office is crowded daily by excursionists from the East, such an exhibition would be bound to attract attention this way. Who will interest themselves in this matter?

P's in Season.

Persons who patronize newspapers should pay promptly, for the pecuniary prospects of the press possess a peculiar power in pushing forward public prosperity. If the printer is paid promptly, and his pocket-book kept plethoric by prompt paying patrons, he puts his pen to his paper in peace; his paragraphs are pungent; he paints his pictures of passing events in more pleasing colors, and a perusal of his paper is a pleasure to the people. Paste this fine big piece of proverbial philosophy in some place where all persons can perceive it.—*Exchange.*

New Information Filed.

A new information in the case of the People vs. John S. Van Doren was filed in the Superior Court at Santa Rosa, Wednesday, says the *Democrat.* The information charges the defendant with embezzling $100 of the bank's money during the month of April, 1884. It is understood that a motion will be made by the counsel for the defense to dismiss the case on the plea of once in jeopardy.

It Pays to Grow Prunes.

Out on S. M. Tool's fruit farm, northwest of Napa, this season, ten tons of prunes were gathered from 70 trees. Figuring this fruit at $30 per ton (a low estimate), the yield of those trees was worth $300. There are usually from 100 to 150 trees to the acre. These ten tons were therefore the product of two-thirds of an acre of ground. Four hundred and fifty dollars an acre for one season's yield of prunes is not bad in a country where good, unimproved fruit land is offered at from $25 to $100 per acre and the best improved land with bearing vines and trees can be bought for from $250 to $350.—[Napa Register.

In connection with the above we might state that Mr. S. H. Shaw of this place offers for sale in another column a few hundred choice prune trees on almond stocks.

PERSONAL.

Rev. Father Esser, pastor of St. Francis' Church, left for the East last Sunday afternoon. He expects to be absent one year. During his travels he will visit the scenes of his youth in Wisconsin and also extend his journeyings to the Old World. The Rev. Father has many warm friends in Sonoma who wish him a pleasant journey and safe return.

A grand prize ball is announced to take place at Glen Ellen on the 21st inst. The feature of the evening will be the prize dancing. The first prize for both ladies and gentlemen are two handsome watches, which can be seen at C. J. Poppe's store in Glen Ellen. Good music by Rhind of San Francisco. All are given an invitation to attend. Admission, $1. *

Convention of Grape-Growers' and Wine-Makers.

Owing to the announcement made by the State Board of Viticultural Commissioners, that they would not be able to devote for the purpose sufficient funds to insure the holding of a successful State Convention the present season, and appreciating the great benefit heretofore derived by the Viticulturists of California from the annual State Conventions heretofore inaugurated and conducted by the Viticultural Commissioners, it has been decided to hold a general State Convention under the auspices of the Grape Growers' and Wine Makers' Association of California, at the Grand Hotel, San Francisco, Monday, March 7th, to continue four days. All persons in any way interested in viniculture or viticulture in the various branches, whether as producers of wine, brandy, raisins or other viticultural products, or dealers in the same, and manufacturers and dealers in viticultural implements, are invited to be present. A committee of the following named gentlemen has been appointed to solicit funds to defray the necessary expenses of the convention, and to invite producers and others to send exhibits of their viticultural products: D. A. Scrimgeour, Napa; Chas. Kohler, Jr., Sonoma; A. I. Sweetzer, Solano; D. C. Feely, Santa Clara; A. Erz, Los Angeles; C. C. McIver, Mission San Jose; F. L. Fowler, Livermore, Alameda Co.; M. Denicke, Fresno; Wm. Palmtag, San Benito Co.; M. Keatinge, Lake Co. and Dr. J. A. Stewart, Santa Cruz Co. Those who send samples of wine, brandy, raisins or other products, or implements, are requested to forward them to "Viticultural Convention, Grand Hotel, San Francisco," in time for them to arrive as early as the fourth day of March, otherwise it will be impossible to classify them in time for proper examination. It is not the intention to have any competition between individuals as to the merits of respective products, but all are requested to taste and examine for themselves, and draw their own conclusions. However, in the general interest of producers, proper committees will be appointed to carefully examine all samples sent, who will be asked to report on the distinctive characteristics of the products of the different districts of the State, in order to lay a foundation for classification of the types produced within the boundaries of well defined districts.

Winter Tree Washes.

The State Board of Horticulture has just sent out a bulletin giving information as to Winter washes for trees. The following is a digest of the more important points:

To prepare washes put the various materials in sacks and hang them in hot water, and then mix the waters. The Imperial and Cyclone nozzles are recommended. The trees should be pruned and thinned out, barring the leading shoots. The solutions should be made weaker after the buds have commenced to swell sensibly, and the washing should be finished by the end of February. The wash should be applied on a moist or foggy day and towards sundown. The following solutions are recommended for armored scales and even for the oyster-shell bark louse. To one pound of commercial potash, dissolved in two and one-half gallons of water, add either one of the following named substances: One pound of solid concentrated American lye, or four-fifths of a pound of powdered caustic soda.

The cost of spraying is about 13 cents a tree, one of average size requiring one gallon of the solution. For wooly aphis spread two shovelsful of fresh gas lime around the apple tree in a circle six feet in diameter. Do not let it touch the neck of the tree; fresh ashes should be put around the neck. If wooly aphis infects the tree-top, daub kerosene on the knots. Gas lime applied in the same manner will also kill peach moth.

The Home Paper.

Under the above heading the Santa Rosa "Democrat" prints the following excellent article in its issue of the 16th instant:

No one should undervalue the importance of metropolitan journals, those Argus-eyed critics and chroniclers of the world's events. Their field for gathering news and gems of literature; their extensive facilities and means for the employment of the foremost talent to express the most profound opinions on popular themes give them a place among the people in this progressive age of immeasurable importance. But while they contribute largely to the education of the people on a great variety of questions, the home paper performs an office which if not so general is of a still more practical character, and is well nigh indispensable to every man and woman, who does not desire to live mentally, morally or socially within the narrow limits of his or her fireside, and immediate vicinity. He who lives without local news struggles in an unequal contest for success against others who see the insignificance of the price of a home paper when compared to its benefits.

Let a man be ever so poor he cannot live absolutely, or even comparatively alone in this busy age. The tendency of the times is to a closer identity of private with public interests. There are ten organizations now for business as well as social purposes where twenty-five years ago there was one. Men of all classes are constantly coming together now for a great variety of purposes, and in many relations. Population, education, wealth and competition are increasing. Every citizen, however humble must keep awake to current events, know the direction of the tide, or men better informed than he, will use him and his property for their own advancement, and leave him for lack of a better excuse to charge his mishaps to adverse fate, or the wickedness of mankind.

The matters contained in a well conducted local paper are both useful and interesting. Though they may not possess a high order of literary merit, yet they are interesting from the fact that they have a local application. That man is eccentric if not something worse, who cares as much for occurrences affecting the outside world as if they related to his own city or county. "Such is the patriot's boast wher'er we roam; his first, best country is ever at home."

A local paper in the possession of a subscriber has, in thousands of instances, furnished him with information which, being turned to account, put many a dollar in his pocket or saved him from heavy losses. The lack of one has sometimes lost men their estates or fortunes, and frequently several times the subscription price. Among the departments which may prove to be of vital and practical importance in this way may be mentioned market reports, legal proceedings and acts of county officers. A tax sale may deprive one of his farm or make a heavy bill of costs in redeeming it; a debt against the estate of a solvent deceased debtor may be barred and lost by not seeing a "notice to creditors;" crops may be marketed for hundreds of dollars less than the market price by not keeping run of the market reports; bargains may be lost by not knowing what property is advertised for sale; and legal remedies against persons moving out of the county, and other persons, may be lost or rendered unavailing for lack of knowledge to be gleaned only in the local papers.

Turning from matters involving pecuniary interests to strict reading matter, where shall we begin or end? The value of the daily or weekly local paper is not appreciated until after a period of regular appearance, if it ceases to come. Whoever places a slight value on a good local newspaper stands in his own light.

AYER'S PILLS Sugar-Coated Cathartic

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va. ††

TRIED IN THE CRUCIBLE.

S.S.S.

About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.

Boarding at Home.

Farmers may secure farm help much above the average by building houses on their farms to be rented or sold to those desiring small homes. The advantage of building such houses is lost if they are always to be rented. The most rickety and uncomfortable house will usually find a tenant, but the character of the occupant will be largely determined by the house in which he is expected to live. The best class of farm laborers will not remain in a poor house, nor one which they can have no hope in the future of making their own. They should not only be allowed, but also encouraged to cherish the ambition of buying a few acres as a homestead for themselves and their children. The farmer owning fifty, one hundred or two hundred acres should calculate to sell off small pieces as they are wanted by desirable men for permanent homes. If a farmer builds a house with the purpose of ultimately selling it and a few adjoining acres, he will certainly build better than if he only intends to rent to employes. The building of such desirable little homes for farm laborers may seem to involve to much trouble and expense, yet it is an investment that will pay in more ways than one. Much of the work may be done at odd jobs, and without direct money outlay. Many years ago good a farmer built three such tenement houses on his farm of one hundred and fifty acres. He set fruit trees around each, and these latter became so productive that the place was salable at a price far beyond the cost of fitting up; in fact they were thought too valuable to be sold, and the farmer, now an old man, has the satisfaction of seeing his children settled around him and living where they can cheer his declining days. Had he built poor tenement houses after the usual pattern, every year they would have grown less valuable, and occupied by a poor class of tenants, would finally have become almost valueless.—*Exchange.*

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free Trial Bottles of this standard remedy at Wegner's Drug Store. 4

Renews Her Youth.

Mrs. Phœbe Chesly, Patterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50c. at Wegner's Drug Store. 4

Uncle Jake (to his chums as an evidence of the simplicity of a stage-load of city folks recently under his charge): Ez we turned Clagget's Bluff, about seven o'clock, the hull crowd busted out in 'Ohs!' an' 'Ahs!' an' what d'ye s'pose 'twas all about? Why, one of them common red an' yaller sunsets.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefitted the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint and the German Syrup for Coughs and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted in every town and village in civilized countries. Sample bottles for ten cents remain the same size.

A Terrible Surgical Operation

A FATAL MISTAKE.

THE *Cleveland* (Ohio) *Press*, of February 23d, 1883, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country, Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous. It appears that a Mrs. King had been suffering for many years from some disease of the stomach, which had resisted the treatment of all the physicians in attendance. The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable taste. This sensation was not removed by food, but, on the contrary, it was increased. After a while the hands and feet became cold and sticky—a cold perspiration. There was a constant tired and languid feeling. Then followed a dreadful nervousness, with gloomy forebodings. Finally the patient was unable to retain any food whatever, and there was constant pain in the abdomen. All prescribed remedies failing to give relief, a consultation was held, when it was decided that the patient had a cancer in the stomach, and in order to save the patient's life an operation was justifiable. Accordingly, on the 22d of February, 1883, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Ferrier, Dr. Arms, Dr. Gordon, Dr. Capner, and Dr. Halliwell of the Police Board. The operation consisted in laying open the cavity of the abdomen and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (for this was what the disease really was), she would have been living to-day. SHAKER EXTRACT OF ROOTS, or SEIGEL'S CURATIVE SYRUP, a remedy made expressly for Dyspepsia or Indigestion, has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of its efficacy in curing this class of cases is too voluminous to be published here; but those who read the published evidence in favor of this dyspeptic remedy do not question its convincing nature, and the article has an extensive sale.

Rich Milk.

While there may be considerable difference in the milk of cows that receive like treatment, we are quite positive, from our own experience and observation, that, as a rule, the great difference in the qualities of milk is attributable, and may be directly traced to the character of the food given. We fully believe in the truth of the oft-repeated statement that a cow is simply a machine for converting raw food material into milk. The quantity of the product from this machine, as from other machines, depends mainly upon the character of the material used. No milling apparatus ever invented or operated can make a good article of flour from a poor, low quality of grain. It is an utter impossibility. Nor can a rich supply of milk be obtained from a poor article of food. We often see farmers feeding their milch cows flat marsh hay. Such food will hardly sustain life in an animal. The manure of animals fed upon such food alone is hardly worth hauling to the field. The bulk is there, but that is of little use if it has no quality worth mentioning. How can the farmer expect good rich milk from such food? When accompanied with a liberal quantity of meal or other rich condensed food, medium results may be obtained. But to get a good quantity and a good quality of milk, hay made from nutritious grasses must be used, accompanied by meal and a limited supply of green food, such as our various roots afford. The succulent nature of roots tends to materially increase the flow of milk, but unless accompanied by something nutritious and hearty it will be light and thin. The addition of meal to the roots makes a most complete and wholesome diet for milch cows. We have tasted milk in which we imagined that we could detect the flavor of the rich meal. It seemed almost fit to put into the churn just as it came from the cow. We observe the same difference in the pastures. A marshy flat grass pasture will never yield such milk as comes from the nutritious tame grass pasture. An increased quantity as well as a better quality of milk comes from the latter. Farmers have too generally gotten into the way of devoting the low wet portions of their pastures that bear nothing but the poorest quality of wild grasses, to pasturage uses. A cold, sour soil is as valueless for this use as it is for cropping with ordinary farm crops. The farmer who keeps milch cows can afford to give them the best the farm affords. If his milk goes to the cheese factory it will weigh enough more to pay him; and if it is made into butter, the higher quality of the article will surely bring sufficient consideration.—*Dairy World.*

Excursionists in Peril.

There is at the Palace Hotel a little party of Eastern people who fervently thank their stars that they are on terra firma and alive and well. Yesterday they were in Napa, and to view the beautiful country round about took a little stage ride to Napa Springs, five miles away. The gulches of that reigon, owing to the recent heavy rains, are just now filled with raging torrents and have in several instances swept away bridges. This party came to one of these brimful streams and, as there was no other way of doing, they concluded to try fording it.

Their four horses attached to the Concord coach were lashed into it, but what was their consternation when the leaders began swimming, and a moment thereafter all four were struggling for life. The coach filled with water, the ladies were in terror, and the gentlemen made ready to leap with them into the boiling flood.

Just then the lead horses struck the edge of the quite precipitous bank on the other side, and by a deal of hooting and lashing on the part of the mountaineer Jehu, they just managed to get up, as it were, by "the skin of their teeth." All were pretty thoroughly soaked, and all were of the opinion that they had barely escaped a watery grave.

The party consisted of W. P. Hill and wife of Boston, H. M. Walker and wife of Brockton, Mass., and Mr. and Mrs. Woodruff and Mrs. Lyons of Luddington, Mich.—*S. F. Examiner.*
